

DECLARATION

I, hereby declare that this thesis entitled “**Ultrasound assisted supercritical CO₂ extraction of carotenoids from gac fruit**” is a bonafide record of research work done by me during the course of research and the thesis has not previously formed the basis for the award to me of any degree, diploma, associateship, fellowship or other similar title, of any other University or Society.

Place: Tavanur

ASHITHA THOMAS

Date:

(2022-18-004)

CERTIFICATE

Certified that this thesis entitled “**Ultrasound assisted supercritical CO₂ extraction of carotenoids from gac fruit**” is a bonafide record of research work done independently by **Ms. Ashitha Thomas (2022-18-004)** under my guidance and supervision and that it has not previously formed the basis for the award of any degree, diploma, fellowship or associateship to her.

Place: Thrissur

Date:

Dr. Sudheer K P
Professor and Head
Dept. of Agri. Engg
CoA, Vellanikkara

CERTIFICATE

We, the undersigned members of the advisory committee of **Ms. Ashitha Thomas (2022-18-004)** a candidate for the degree of Master of Technology in Agricultural Engineering with major in Processing and Food Engineering, agree that the thesis entitled “**Ultrasound assisted supercritical CO₂ extraction of carotenoids from gac fruit**” may be submitted by **Ms. Ashitha Thomas (2022-18-004)** in partial fulfilment of the requirement for the degree.

Dr. Sudheer K P

(Chairman)

Professor & Head
Dept. of Agrl. Engg
CoA, Vellanikkara

Members

Dr. Prince M V

Professor & Head
Dept of P&FE
KCAEFT, Tavanur

Dr. Rajesh G K

Assistant Professor,
Dept. of P&FE
KCAEFT, Tavanur

Dr. Suma Nair

Assistant Professor,
Agriculture Research Station
Mannuthy, Thrissur

Dr. Sujayasree O J

Postharvest specialist,
ICRISAT campus,
Hyderabad, Telangana

Dr. Ravindra Naik

Principal Scientist and Head
ICAR- CIAE,
Coimbatore

Acknowledgment

ACKNOWLEDGMENT

*Every endeavour in this world reaches its successful conclusion not solely through the sincere efforts of an individual, but through the collective support and collaboration of many. I would like to express my deepest gratitude to **God almighty** and my parents, whose blessings, guidance, and unwavering support have been the cornerstone of my journey. Without their mercy and constant encouragement, accomplishing my work and preparing this manuscript would not have been possible. Their presence in my life has been a source of strength, instilling in me the perseverance to face challenges and the inspiration to strive for excellence in every pursuit.*

*I express my deep and sincere gratitude to **Dr. Sudheer K. P.**, Professor and Head, Department of Agricultural Engineering, CoA, Vellanikkara, for his unwavering support, meticulous guidance, and constructive feedback throughout this research. His dedicated supervision and insightful advice have been invaluable in shaping and refining the direction of my work. I am truly privileged to acknowledge his continuous encouragement, which has laid a strong foundation for my research. I hold the highest regard for his wholehearted support and tireless assistance, which have been critical to the successful completion of this study.*

*With great pleasure that I express my sincere gratitude to **Dr. Jayan P. R.**, Dean, Professor and Head of the Department of Farm Machinery and Power Engineering, for providing the necessary infrastructure and facilities that supported my research study at his institution.*

*I sincerely extend my thanks to **Dr. Prince M.V.**, Professor & HOD, Department of Processing and Food Engineering, KCAEFT, Tavanur, for his continuous encouragement and support, which were helpful in the successful completion of my research work.*

*I avail this opportunity to express my sincere thanks to my advisory committee members **Dr. Prince M.V**, Professor and Head, Dept. of P&FE,*

KCAEFT, **Dr. Rajesh G K**, Assistant Professor, Department of Processing and Food Engineering, KCAEFT, **Dr. Suma Nair** Assistant Professor, Agriculture Research Station Mannuthy, Thrissur and **Dr. Sujayasree O. J.** Postharvest specialist, World Vegetable Center, South and Central Asia, ICRISAT Campus, Hyderabad, Telangana.

My heartfelt thanks to **Dr. Vithu Prabha**, Agribusiness Incubator, Dept. of Agricultural Engineering for his guidance throughout the preparation of this manuscript as well as for the support and assistance during my research. Also, I wish to record my sincere thanks to **Dr. Abdullah S** and **Dr. Shahanas E**, Agribusiness Incubator, Dept. of Agricultural Engineering, CoA, Vellanikkara for their time-to-time help, support and kind cooperation throughout my investigation.

I sincerely thank my friends, **Er. Arsha Sugathan**, **Er. Noorbina Razak**, **Er. Aveen Ragh**, **Er. Revathi N**, **Er. Haritha V**, **Er. Dixita Gourshetty** and **Er. Sankar M**, who were always forthright in lending a helping hand during my research work and thesis completion. Also, I express my heartfelt gratitude to my seniors **Er. Nithya C** and **Er. Navya K P**, for their valuable guidance and encouragement throughout my research work.

I express my heartfelt gratitude to **Er. Anusree Aravind** and **Mr. Aswin B C**, for their support and help during work.

My abstruse regards go to **Er. Anjaly Balakrishnan**, **Sreekesh P S**, **Jithin M C**, for helping in the laboratory work at Agribusiness Incubator and for their encouragement during my thesis work.

I extend my heartfelt gratitude to the entire faculty of the Department of Agricultural Engineering, College of Agriculture, Vellanikkara, for their unwavering support and assistance throughout my lab work.

I sincerely thank all the faculty members of KCAEFT and the staff of the KCAEFT Tavanur Library for their constant willingness to assist and cooperate. My heartfelt appreciation also goes to Kerala Agricultural University for providing the conducive environment necessary for this study.

*I feel inadequacy of diction to express my sense of gratitude and affection to my mother **Mrs. Simmy Thomas** and my brother **Dr. Akhil Thomas** and all my relatives and friends for their keen interest as well as constant and ambitious encouragement in my career, which spurred me towards higher course.*

One last word; since it is practically impossible to list all the names who have contributed to my work, it seems proper to issue a blanket of thanks for those who helped me directly or indirectly during the course of study.

..... any omission in this small manuscript does not mean lack of gratitude.

ASHITHA THOMAS

Dedicated
to
My Beloved
Family, Teachers,
and Friends

TABLE OF CONTENTS

Chapter No.	Title	Page No.
	LIST OF TABLES	i
	LIST OF FIGURES	ii
	LIST OF PLATES	iii
I	INTRODUCTION	1

LIST OF TABLES

Table No.	Title	Page No.
2.1	Application of engineering properties of fruits/vegetables	7
2.2	Best-fit model for fruits	9
2.3	Extraction of carotenoid using different solvent	12
2.4	Application of supercritical extraction	30
3.1	Physical and gravimetric properties of Gac fruit	42
3.2	Friction and thermal properties of Gac fruit	44
3.3	Experimental design for ultrasound treatment	47
4.1	Measured and calculated physical parameters of Gac fruit	56
4.2	Measured and calculated friction, colour and texture parameters of Gac fruit	59
4.3	Thermal properties of Gac fruit	62
4.4	Physicochemical characteristics of Gac fruit	66
4.5	Best-fit regression mass models for Gac fruit	70
4.6	Ultrasound process parameters with their responses	75
4.7	Constraints of ultrasound treatment	82
4.8	Solutions of ultrasound treatment	83

LIST OF FIGURES

Figure No.	Title	Page No.
2.1	Stages of carotenoid recovery using SC-CO ₂	23
3.1	Process flow diagram for the experiment	38
3.2	Ultrasound extraction of Gac fruit	48
3.3	Schematic diagram of SFE system	49
4.1	Proportion of Gac fruit components per fruit	58
4.2	Texture Profile Analysis (TPA) for Gac fruit	63
4.3	Best fit regression models for predictive mass modelling of Gac fruit	69
4.4	β -carotene yield at different extraction time	74
4.5	Effect of ultrasound process parameters on extraction yield of β -carotene	77
4.6	Effect of ultrasound process parameters on carotenoid recovery	79
4.7	Effect of ultrasound process parameters on antioxidant activity	80
4.8	Effect of extraction yield on time	85
4.9	β -carotene concentration in extract	86
4.10	Functional groups in extracted oil	89
4.11	Microstructure analysis of Gac fruit powder	93
4.12	FTIR analysis of Gac fruit powder	95
4.13	Optimized Process for Beta-Carotene Extraction from Gac Fruit	97

LIST OF PLATES

Plate No.	Title	Page No.
3.1	Gac fruit and its parts	40
3.2	Main instruments used for the study	41
3.3	Solvent extraction process of Gac fruit	47
4.1	Effect of SFE on Gac powder colour	91
